8) Employment History: volunteer & Community services

8.1 Leadership of Education System Development Initiative team(ESDI) within "the Assembly of Libyan Academics & Experts" (ALAE)

The ESDI team is one of the many different teams which formed under the umbrella of NGO called "the Assembly of Libyan Academics & Experts - ALAE" (for more info: alae.org.ly). I working on build up this team using the available academics and experts either among ALAE members or between all the people who are interested or involved on education development . So far, i finished building a very high skilled managerial team to lead the initiative. We started our meetings for planning the next stage.

8.2 Founder & head of voluntary technical support team, Kasr-khiar Municipal Council

I worked on creating and configuring a technical team on the regional level which I called "**the regional volunteer technical team**". This team was made up of experts and competent youths in the region, who have experience in the Internet usage, modern technologies and automation mechanisms for the public service . Meaning, the team designed to work on develop and support the automation of the Municipal Council services and has, in particular, the following tasks and objectives: *Provide technical support and advice. Prepare proposals and recommendations. Took the initiative to study and develop technical plans. Work on the desired content aggregation to create a website. Automate the Council services and procedures. establish the "regional Documentation and Information Center"*.

8.3 Jan 2015: Volunteer Project Founder and Manager for Education System Development in the Region of Kasir-khiar Municipal Council.

I founded and worked as a manager for the volunteer *project* which was launched in the region as a first initiative for (Faculty of Arts and Sciences / Kasir-Khiar - University of El-Mergib). The project was targeting the development of the public education system in the region under the name "**the volunteer project to develop the education system in the region**", where targeted all education system components (Teachers - Curriculum - Schools - Office of Education in the region - the regional guidance office). **The project activities can be checked at www.facebook.com/esdpro.**

8.4 Jan 2014: Co-Founder of Tripoli office of The Libyan Organization for "experts of Cybercrime , Fraud and Information Security" (NGO)

The organization was founded in the wake of the war of liberation, it was declared as an NGO in the city of Benghazi in 2012. It ran successfully a number of awareness activities in Benghazi (courses, workshops, training and lectures). Also, the functions of the organization in the legislative side, induction and work on a necessary new legislation and on e-crime and electronic fraud, intellectual property and digital. According to the organization plans in line with the size of the target demand of the organization , it was expanded to establish offices in all the cities of Libya. I was co-founder of the Tripoli Office, and I took charge of experts and External Cooperation Office. Then - in March- I have been chosen to be the CEO of the organization at the level of our beloved Libya.

8.5 Aug 2015: Founder and launcher of the online initiative : Distinguished Teacher Initiative

I founded the idea of launching an online initiative for supporting the teachers for learning and adopting the modern teaching methods to boost their performance rates. The main idea of the initiative was focused on creating a space for teachers to exchange information where every teacher can share his/her own experiences and teaching materials with the others.

9) Personal Interest:
